DENIED

Dan Lipinski has voted to deny women in the military the right to use their own, private money for abortion care at their base hospitals.⁽¹⁾

Lipinski opposes the right to choose, even in cases of rape or incest.⁽²⁾

Congressman Lipinski's votes impact our servicewomen around the world. According to the Pentagon, the number of reported sexual assaults in the military increased approximately 24 percent in 2006 – nearly 3,000 incidents were reported in 2006 compared to almost 2,400 in 2005.⁽³⁾

Women who serve their country deserve a congressman who serves them, and we all deserve better than Dan Lipinski.
